## College of Design

Congratulations to my dear graduates. I am so proud of you. Now, you get ready for a whole new adventure. I believe that you will make a difference wherever you go and whatever you do. I advise that your first energy should be your character - development. Here are some principles for the success of your journey.

1. Be proactive. Live your life as everything is possible. Albert Einstein stated that.... "There are two ways to live your life. One is as though nothing is a miracle. The other is as though everything is a miracle."
2. Be humble. Serving others with your talents. Believing in treating all people with kindness and respect, as well as believing in your value.
3. Be accountability. Understand your role and willing to take responsibility for your own actions. Be honest with everyone and be quick to apologize. Manage your times wisely, know your limits, and be open to change.
4. Be a person with integrity. You choose to do the right thing. You honest to everyone, and always keep your word.
5. Be curious person. As a designer, you're always eager to learn, always questioning, rethinking, fight for the best design, and leave something behind!

"If you can't fly, then run. If you can't run, then walk. If you can't walk, then crawl, but by all means, keep moving."

It is my prayer that God will lead you and protect you from all evil ones in whatever you do and wherever you go. May you be courage to do the right thing, and seek not for yourselves, but, for the better of the other first. For it is by giving that we receive. May God bless you all in your life journey.
