International College

To All Precious RIC Graduates

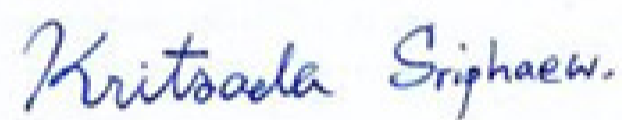

On this extraordinary opportunity, I would like to congratulate you all with my deepest sincerity and humbly lead you to reminisce and appreciate all of the stories, friendships, requirements, or even obstacles you have been through. From now on, you are turning to the next station of your life, and your journey is just the starting point. It is time for you and your family to be satisfied with this moment.

Firstly, BE PREPARED! Please remember that this world is not limited, and so do you. You might be wondering how completely crucial our globalized inter-connected world is, and all of your grades received from the university is only your foundation. Also, developing yourselves, skills, creativity, and abilities is a great powerful weapon to overcome the obstacles ahead in the near future. With your fully multicultural potential, you will be overwhelmingly expected to be in the front row and to navigate others if having probabilities.

Second, BE STRONG! Because of the era of innovation and disruption which we inhabit, learning from mistakes is the thing that you have to confront, accept, and change for the better as rapidly as you can. Someone once said that "There is no elevator to success, you have to take the stairs". This is the truth of our lives. Therefore, make a commitment to do something that you truly love, and build a structure of behaviours that will carry you through during difficult times. You would be allowed to cry but not forever.

Third, BE INSPIRED! Passion and motivation are like trees, if you do not look after them, they will definitely die one day. So, let's make yourselves inspired by everything you have faced. Follow your passion until you tested them with reality. Additionally, please note that dreams without goals are just dreams.

Finally, these are my minor suggestions from me to help you live in our enormous world. It is, consequently, my earnest and sincerest hope that every one of you will achieve all the dreams that you have planned for yourselves. I wish you all the best, healthiest, wealthiest, and happiest luck. And again, congratulations to you all.
