## The Conservatory of Music

Today, we gather to celebrate your remarkable achievements as you embark on the next chapter of your journey. As the Dean of the Conservatory of Music at Rangsit University, I am immensely proud of each and every one of you.

Our Conservatory has always stood for excellence, innovation, and the pursuit of musical mastery. From the very beginning, our vision has been to nurture not just musicians, but also creative thinkers, artists, and leaders who can shape the future of music in a rapidly changing world.

Our values are deeply rooted in the belief that music has the power to transcend boundaries and touch the human spirit. We instill in our students the values of dedication, discipline, and the relentless pursuit of artistic excellence. We believe in the importance of creativity, innovation, and adaptability, allowing you to thrive in an ever-evolving musical landscape.

Our philosophy is centered around the idea that music is not just a discipline but a way of life. It is a language that connects people across cultures and time, a means of expressing the profound and the ordinary, a force that can heal and inspire.

As you move forward, remember the core principles that have guided your education at the Conservatory:

**Excellence:** Strive for excellence in everything you do. Your commitment to your craft and your willingness to push boundaries will set you apart.

**Innovation:** Embrace innovation and change. Be open to new ideas and approaches that will shape the future of music.

**Respect:** Respect not only the art but also those who create it. Treat your fellow musicians, mentors, and collaborators with kindness and professionalism.

**Diversity:** Celebrate diversity in music and in life. Recognize the power of music to bridge divides and bring people together.

**Passion:** Stay passionate about your craft. Let your love for music be the driving force behind your artistic journey.

**Service:** Remember that music has the power to uplift and heal. Use your talents to serve your communities and contribute positively to society.

**Lifelong Learning:** The journey of a musician is one of continuous learning and growth. Keep exploring, evolving, and expanding your horizons.

**Service:** Remember that music has the power to uplift and heal. Use your talents to serve your communities and contribute positively to society.

**Lifelong Learning:** The journey of a musician is one of continuous learning and growth. Keep exploring, evolving, and expanding your horizons.

You are now part of a legacy, a family of musicians and artists who share these principles. Carry them with you as you step into the world as graduates of the Conservatory of Music. Use your talents not just for personal success but also to enrich the lives of others.

In closing, I would like to quote the great composer Ludwig van Beethoven: "Music can change the world." Graduates, I have every confidence that you will go out into the world and prove this statement true.

Congratulations, Class of 2023! May your music touch hearts, inspire minds, and bring joy to the world.

With warmest regards,

**Assoc.Prof.Dr.Denny Eupraser**
